2014 Revenue

The patients of Health Partners Free Clinic are not charged for any services provided here. In order to secure funds to continue operations, we must continually develop new revenue streams. Fortunately, the Clinic has found support from local foundations, individuals, corporations, grantors, and local United Way agencies for many years. Fund raising is always a focus for us here at Health Partners.

2014 Expense

Health Partners directs eighty percent of our revenue towards Clinic programming alone. With good stewardship we were able to dispense \$7.70 in medical services for every \$1 spent.
